About ARAGON

Welcome to Aragon PEB Structure Pvt. Ltd., a rising star in India's Pre-Engineered Building (PEB) solutions. Our journey is driven by a relentless pursuit of excellence, where customer satisfaction and quality artistry are our guiding principles.

We offer end-to-end PEB solutions, from design and engineering to fabrication and installation. We have the capability and capacity to handle projects of any scale and complexity across various sectors, such as industrial, commercial, institutional, and infrastructure. We have a dedicated team of professionals who work with the latest technology and software to deliver optimal results within the stipulated time and budget.

Despite being a startup, Aragon PEB Structure Pvt. Ltd. possesses the expertise to create aesthetically pleasing structures without compromising strength. Our "Building Trust" motto reflects our commitment to constructing structures and fostering long-lasting relationships with our clients.

Our plant currently boasts a production capacity of 50,000 metric tons per year, with potential for expansion to 50,000 metric tons annually. Situated across a sprawling area of 3,50,000 square feet, our manufacturing facility is primed for growth and efficiency.

Vision

Driven by a customer-centric philosophy, Aragon PEB Structure Pvt. Ltd. aspires to set new standards in the pre-engineered steel structure industry. Upholding values and virtues above all else, we strive to be a beacon of innovation and creativity fueled by the collective efforts of our dedicated team

Mission

Our mission at Aragon PEB Structure Pvt. Ltd. is anchored in a relentless pursuit of quality and commitment. Whether it's industrial projects, commercial complexes, or specialized structures like aircraft hangars or stadiums, we prioritize quality at every step. From meticulous design to stringent quality checks, we ensure that every structure meets the highest safety and durability standards.

Our Values

- Building Trust

We earn trust through consistent quality, transparency, and ethical practices.

- Unwavering commitment to quality

We source the finest materials, employ skilled professionals, and ensure exceptional products and services.

- Passionate about innovation

We develop new and better solutions to address your evolving needs.

- Continuous learning culture

We stay at the forefront of industry advancements to deliver cutting-edge solutions.

- Customer satisfaction at heart

We exceed expectations through exceptional service, personalized support, and prompt issue resolution.

Quality Commitment

At Aragon PEB Structure Pvt. Ltd., our commitment to quality is our promise to clients. Whether it's constructing vast industrial complexes or commercial facilities like warehouses and stadiums, we ensure excellence in every project. We adhere strictly to industry standards, designing and manufacturing structures according to MBMA (Metal Building Manufacturing Association) guidelines and client-specific requirements as per the IS code.

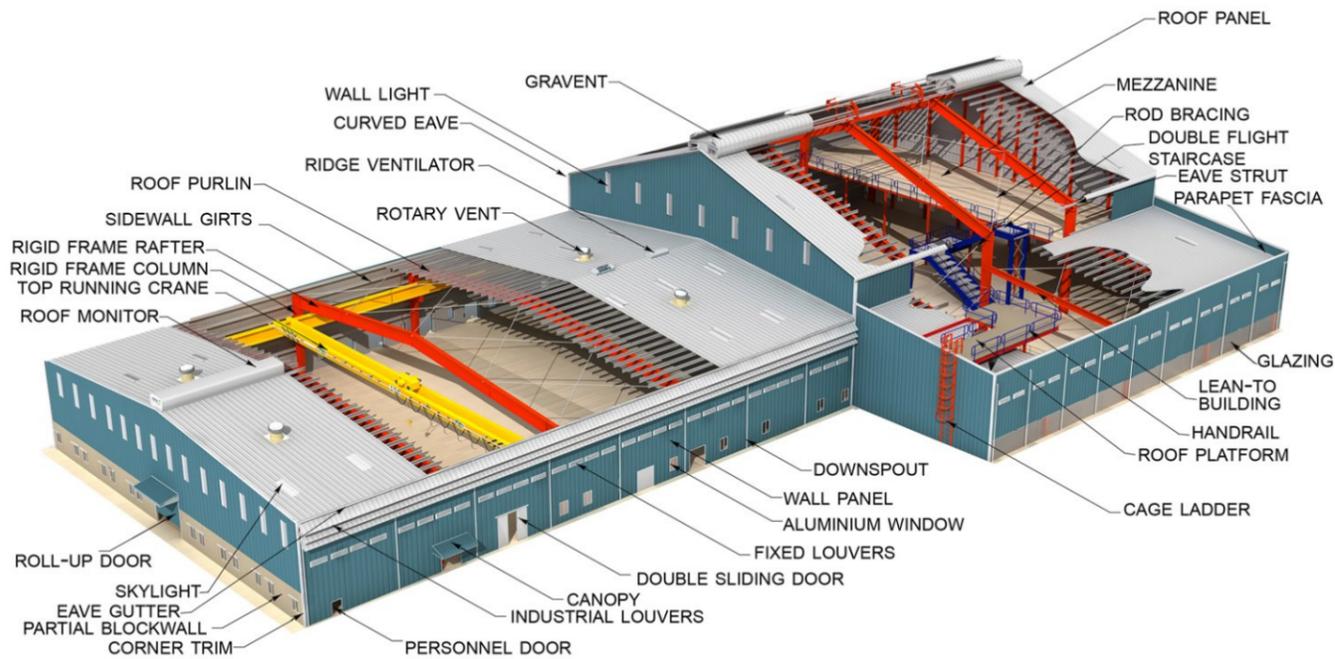

From sourcing superior materials to rigorous quality checks throughout construction, we guarantee each structure symbolizes strength and trust. With a dedicated team and streamlined processes, we consistently deliver beyond expectations. Our pledge to quality is unwavering, reflecting our ongoing pursuit of excellence and client satisfaction.

Pre-engineered Buildings

Aragon's Pre-Engineered Building System stands unrivaled from conception to completion, excelling in versatility, flexibility, and total value-engineering. Renowned as one of the fastest-growing building systems globally, its myriad benefits resonate with all project stakeholders. With its unmatched blend of speed, quality, and value, it's an irresistible choice for any construction endeavor.

Pre-engineered buildings find myriad applications, offering an ideal solution for both residential and non-residential low-rise structures.

Mezzanine floors have become increasingly prevalent in modern PEB buildings, offering versatility for various purposes such as office space, storage areas, and processing plants. Our mezzanine floors are tailored to project requirements, featuring galvanized deck sheets or chequered plates. For specialized applications, gratings may also be incorporated. The typical framing system includes beams and joists, ensuring sturdy support and structural integrity.

Why Aragon? —

Innovation, Quality, Trust: Your PEB Partner.

Why Choose Us? Aragon PEB Structure Pvt Ltd is a PEB manufacturer that stands out. We are a team of professionals passionate about PEB structures and their benefits. We aim to provide our clients with the best PEB solutions, focusing on quality, innovation, and customer satisfaction.

We have the edge over the traditional PEB manufacturers, using the latest technology, flexible processes, and low overhead costs. We are always learning, improving, and adapting to the latest trends and developments in the PEB industry, and we are always ready to take on new challenges and opportunities.

We also value our clients as our partners and collaborators. We listen to their needs and requirements and work with them to create customized and comprehensive PEB solutions that suit their budget, timeline, and specifications.

We also provide excellent after-sales service and support, ensuring our clients are satisfied with our PEB structures and performance.
